

LIONEYE₂ Optical Label Sensor

Smaller, more versatile optical label sensor from Lion Precision

- Easy, Push-Button Teach
- Manual Adjustments Option
- Programmable Light/Dark Switching
- NPN and PNP Outputs
- Short-Circuit Protection
- Two-Year Warranty
- M8-4 Pin Connector

The LionEye₂ is the new replacement for the original LionEye. This new sensor provides greater programmability and smaller size. Works great with standard labels. For clear labels, use the LRD2100 or LRD6110.

SPECIFICATIONS

Response Time:	50 μ S
Switching Frequency:	10kHz
Operating Temperature Range:	40°F to 120°F (4°C to 50°C)
Signal Output:NPN and PNP
Power Requirements:	+10 to 30VDC
Warranty:	Two Year
